Claims 1-7 and 9-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, the new recitation constitutes new matter since the limitations recited therein pertain to the specifics of the materials of Example 12 and the manner in which they are employed rather than the materials generically recited in the claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce H. Hess whose telephone number is (571)-272-1525. The examiner can normally be reached on Flexible Work Schedule.
